Slide Collection Current

Fresh forms for flexibility

Slide Collection
Current Stool
 Designed by David MocarSKI

Current stools are visually lightweight and highly movable. The seat, which can be upholstered in textile or leather, is contoured for varied sitting postures; it's wide enough to tuck folders or a tablet nearby. The seat sits atop a streamlined and durable solid stainless steel base. And the stool is part of the Slide Collection, which offers the flexibility and function to support the way we work now.

A chair-height stool offers flexible short-term seating

A base of solid stainless steel is stable and durable

Upholstered in textiles or leather, the seat supports casual and varied postures

Specifications

The Current stool has an upholstered seat with a rigid polyurethane core, affixed to a frame constructed of solid stainless steel and resting on nylon glides.

Options:

- Upholstery: COM/COL, Fabric, and Elmo Leather Program
- Base: Polished or Satin Stainless Steel; Statuary Bronze is also available
- Glides: Felt pads are an additional option for the standard nylon glides
